

RARE EARTH SALTS

Rare Earth Salts Mourns the Passing of their CEO

Beatrice, NE, December 8, 2018 – Rare Earth Salts (“RES” or the “Company”), a leading materials technology company, today provided a summary of recent events within the Company.

It is with great sadness that Rare Earth Salts announces the passing of our Chief Executive Officer, Cameron Davies. He passed away unexpectedly the morning of December 3, 2018 in Toronto, Canada at the age of 41.

It is hard to put into words the loss that our company is feeling right now. Cameron was an extraordinary leader, and his contributions have helped to establish a solid foundation for our continued growth and success. Through his strategic guidance, hard work and dedication, we navigated the decisions necessary to see our shared vision of the company come to life.

As with any small company, we were all very close with Cameron. His warm demeanor brightened every conversation, and his presence around Rare Earth Salts and the industry will be greatly missed. We will continue to work to ensure our future successes reflect the ambition of one of our principal partners.

Cameron is survived by his wife, Kristen, and their two children, Leighton and Emerson. Please keep his family and friends in your thoughts and prayers during this trying time.
